BILL TIMING AND LATE FEES

Bills are mailed the last business day of the month. Meter readings are done toward the end of each month to be billed the last day of the month. Therefore, the bill you receive is for water/sewer charges from the previous month. Water and sewer payments are due by the 10th of each month. If you do not pay by the 15th, we will send you a second notice with the delinquent shut-off deadline date. Delinquent accounts are charged a \$3.00 late fee. If you cannot pay by the shut-off deadline date, you must file a written extension request prior to the shut-off date to avoid an interruption in service. City hall has extension forms available to extend your shut-off date.

If you fail to pay your bill or file a written extension by the shut-off deadline, your utility service will be shut-off for non-payment. There will be a \$30 fee charged that morning and the fee and unpaid bill must be paid before services can be reinstated.
