Aumsville Budget Message 2024-2025

To: Mayor Ceja and Budget Committee Members

From: Ron Harding, Budget Officer

Joshua Hoyer, Finance Officer

Date: May 4,2024

I am pleased to present to the council and community a sustainable budget outlook for our community for the immediate future. The proposed budget reflects the proactive approach staff and council has taken in its operations and fiscal management. The Proposed Fiscal Year 2024-2025 City of Aumsville budget will continue to provide high-quality city services, while focusing on some of the priority projects including water system improvements, park enhancements, Sewer facility improvements and continuing community engagement opportunities.

This budget document provides a summary of proposed revenues and expenditures within each fund and utilizes economic guidance from various local and regional agencies, as well as programmed salary step plans and benefits. It also anticipates various improvement projects and other major purchases as outlined by the city's capital improvement plans and approved by the city council.

New construction within the city remains quite low, although there are some properties throughout the city which may begin the development process. System development charge revenues will continue to be minimal until these properties are developed. We expect to see all other operating revenues, such as utility rates, taxes, and franchise fees, increase this year based with a modest inflationary rate.

We continue to work toward city council goals, and our budget continues to include a downtown beautification project, an arts program and continuation of the city community outreach activities to include community events. Major infrastructure improvement which began in 2023 will continue through the 2024 – 2025 budget period.

The following financial policies are proposed to help the City maintain fiscal stability while continuing to provide a high level of service to those in its community:

• The City will operate on a structurally balanced budget. Ongoing operating expenses will be paid from operating revenues. One-time expenses will be spent from one-time resources, such as surplus funds, grants, capital reserves, development fees, etc.

- The City will maintain an ending fund balance equal to at least 90 days of operating expenses within each of
 its operating funds, in order to provide resources adequate to cover operating expenses which occur at the
 beginning of the next fiscal year before the city receives property taxes, charges for services, and other
 resources.
- The City will continue the current level of service in all departments of operation.
- The City will pursue grants or other funding assistance, where practical, to aid in completing projects outlined in the City's capital improvement plans.

The proposed 2024-25 fiscal year budget builds on significant steps taken by the City to help recover and sustain a healthy financial position. The scheduled 3% water and 3% sewer rate increases help to offset the rising operating costs incurred from those services. Each department has implemented what we refer to as a hold-the-line budget, in which the appropriation for expenditures listed under the Materials & Services category are anticipated to be level with the current year's spending authority. Variation from these expenditure levels was discussed with the department heads to explain why additional resources will be needed. The city council and staff continue to work toward challenges in improving our community infrastructure and the city has positioned itself to accomplish many needed projects.

To ensure service levels are supported throughout the community, the City will continue to employ adequate staffing levels in each department. This includes 6 full-time employees at City Hall, 6 at Public Works, and 8 employees in the Police Department.

Personnel Services are anticipated to increase by an average of about 8% across the various operating funds because of staffing changes, employee step increases, a 4% Cost of Living Adjustment to the salary plan in response to steady inflation in CPI, an 8% increase in PERS contribution rates, and up to a 10% increase in health, dental and vision premiums through City/County Insurance Services.

We are expecting significant increases in liability insurance premiums, audit services and communication systems across major operating funds. We have proposed increasing transferred into vehicle replacement funds to keep pace with the increased cost of replacement vehicles.

There are no major changes to the accounting policies of the City of Aumsville. To ensure observance of limitations and restrictions placed on the use of the money available to the city, the accounts are maintained in accordance with the principles of "fund accounting." This is the procedure by which revenues and expenditures for various purposes are classified, for accounting and reporting purposes, in account groups that are in accordance with activities or objectives specified under an adopted budget. These various accounts are called funds and are grouped into Governmental Fund, Proprietary Fund, and Fiduciary Fund categories and the following five fund types:

- General Fund
- Enterprise Funds
- Special Revenue Funds
- Reserve Funds
- Debt Service Fund

The basis of accounting utilized by the city closely resembles the cash basis of accounting; whereby revenues are recognized when received rather than when earned, and expenditures are recognized when paid rather than when the obligations are incurred.

The budget sheets comprise the actual resources and expenditures from the audits of two prior years, the current year's adopted budget, the projected actual resources and expenditures for the current year, and a proposed budget for next year. Funds are divided into the following category levels: Personal Services, Materials & Services, Capital Outlay, Transfers, Debt Service, Operating Contingency, Reserved for Future Expenditure, and Unappropriated Ending Fund Balance.

A copy of this proposed budget is available for review on the city's website and will be available at City Hall.

Thank you,

Ron Harding - City Administrator Joshua Hoyer - Finance Officer

595 Main St. Aumsville, Oregon 97325 (503) 749-2030 | TTY 711 | Fax (503) 749-1852 www.aumsville.us

Doug Cox

The Aumsville City Council is pleased to present these budget highlights for the community. The entire budget follows, so our community can look over the budget details. This summary is intended to provide a quick snapshot of important pieces of our budget. There are many exciting projects and events going on in the city, and our community has a lot to be proud of.

> 2024-2025 Budget = \$18,314,174 \$1,076,700 from Property Taxes

This budget shows the value in maintaining a proactive, healthy financial position. The budget committee continues to make prudent and conservative choices. We want to thank them for their work; in just a couple of years we have made remarkable progress.

In this year's budget you will see some familiar projects as some of them will take multiple years to complete. It is also good to continue to remind the community of our challenges and how they may impact you in the future.

The city's financial position continues to improve, although events like COVID-19, natural disasters like the ice storms and even the historical inflation have impacts that can move the city's financial position up or down. We weather those events by being proactive in managing long-term forecasts and good financial policies which leads to sound financial planning. This year our community is faced with unprecedented inflation which causes great strain on all of us. The city council is mindful not only about the needs of the city as a whole but the needs of individuals within our community. We have a lot to do and many challenges ahead but we're working to address those challenges.

GENERAL FUND

The budget estimates General Fund resources of \$2,743,406

The general fund is our most flexible pool of resources. Transfers from this fund help support police and park services as well as special projects to meet the city council's goals for our community. The revenues are made of property taxes, fees for services provided by the city, franchise agreements, and new construction permits. Special projects to implement the city's vision are all included in this general fund budget. The city will maintain a 90-day cash reserve and continue to meet the expectations of our community.

SATURDAY MARKET

The Saturday Market occurs on the first Saturday of June, July, August, and September at Maude's. It also occurs on the last Saturday of June coinciding with Superhero Carnival. the We have continued to see vendor excitement.

AUMSVILLE EVENTS

The City of Aumsville and its partners host many events each year to bring fun activities to the city and its residents. We are proud that our events and recreational programs rival those of much larger communities and is only possible with the dedicated efforts of volunteers and local sponsors knowing many families have limited income we try to structure many of the events or activities within each event to be free. effort help build community bonds and is a foundation to building a strong community.

ONGOING PROJECTS

New Public Works Facility

Aumsville's Public Works department provides key services that touch a part of everything the city does.

Public Works maintains streets, stormwater, water, sewer and parks. Public Works also coordinates permits, code enforcement, and is the foundation behind all community events. It has been difficult to complete all of these tasks and projects and remain effective from the current shop buildings. The city received a \$900,000 grant to help fund the new building and secured a loan with Business Oregon for the remaining \$1,200,000 estimated for completing the facility.

Our new public works facility is almost complete and should be completed on schedule. This facility was needed to improve operations and help preserve valuable equipment. We were able to get a grant for much of the project and with a small loan and some match funds the project was completed.

Highberger Park Improvements

Last year we applied for a grant to improve Highberger park, the city did not receive that grant. It's important to know that grants are very difficult to get and we have been very proactive and aggressive in seeking them because it a way for us to make community wide improvement with little cost to the community. This year we are applying once again for a local government large grant through Oregon Parks and Recreation for improvements to Highberger Park. The proposed improvements include replacing existing picnic tables with ADA accessible picnic tables, replacing the existing water fountain with an ADA accessible fountain, adding an ADA restroom, moving and enlarging the nature play area, and adding exercise stations along the Highberger Park walking trail.

New Wastewater Facility

We continue to work on the wastewater facility upgrade. The city has been adamant in keeping the community updated on this project and our progress because of the large impact it may have on our residents. We began this project due to a new regulation from the federal EPA in 2017. The new regulation made our existing treatment facility obsolete and unable to meet the standards imposed. That same year the city received a non-compliance order from DEQ and it ordered the city to meet the federal EPA standards or face daily fines. To avoid these fines, we entered into a compliance agreement that provided the city 8 years to develop and implement a facility plan that would meet the standard.

Knowing the cost estimates for a facility of this nature we began planning strategically to position ourselves to acquire as much outside funding as possible. We worked with stakeholders from state agencies and our legislature to be prepared to seize opportunities as they materialized. They did and we were successful. In total the cost estimate for this facility is \$28,453,000. We have received \$19,453,000 in grants and city match.

The city council, staff, state officials, and many residents worked together to build awareness, educate others on the impact of our community, and work in concert to leverage these funds. Even though there will be some costs for our utility, the costs are far less than we originally estimated. Those increases are expected to go into effect next year. When council confirms the new estimate, we will begin working with residents in preparation for the project.

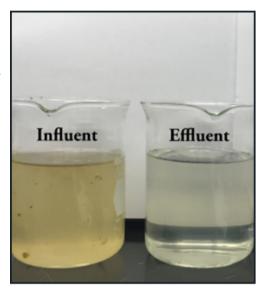

The pictures are of similar wastewater facilities int he city of Jefferson, Oregon.

Major Water and Wastewater Projects

The city was able to secure just under \$4 million dollars in grant funding to build a new water reservoir and two new drinking water wells. This would have cost an additional \$20.00 per month in increased utility rates but the grants allow these improvements with no additional cost to our utility customers. This project is active and expected to be complete in 2026. Construction has been awarded and the project will begin this year ahead of schedule. And will be complete in late 2024 or early 2025.

The city's ammonia levels for effluent discharge are higher than the Department of Environmental Quality and the Environmental Protection Agency allow. To bring the discharge into compliance and avoid high daily fines, a new wastewater treatment facility must be built. The project is in progress with the preliminary engineering report completed in October 2022 and final engineering is in progress.

AUMSVILLE POLICE DEPARTMENT

The Aumsville police department has been serving our community with dedication for many years and our officers continue to work with community members to maintain proactive community policing. These years we have purchased two new patrol vehicles to keep up with aging vehicles.

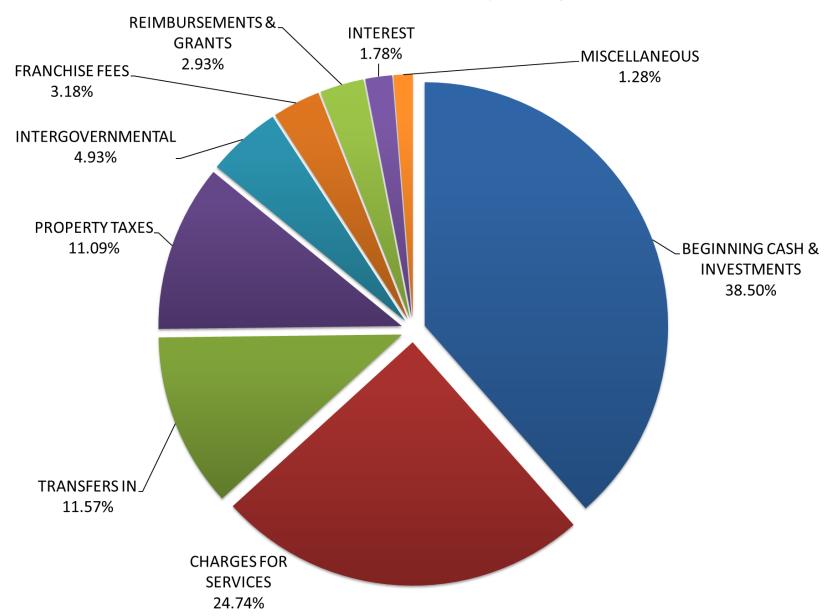

SUMMARY

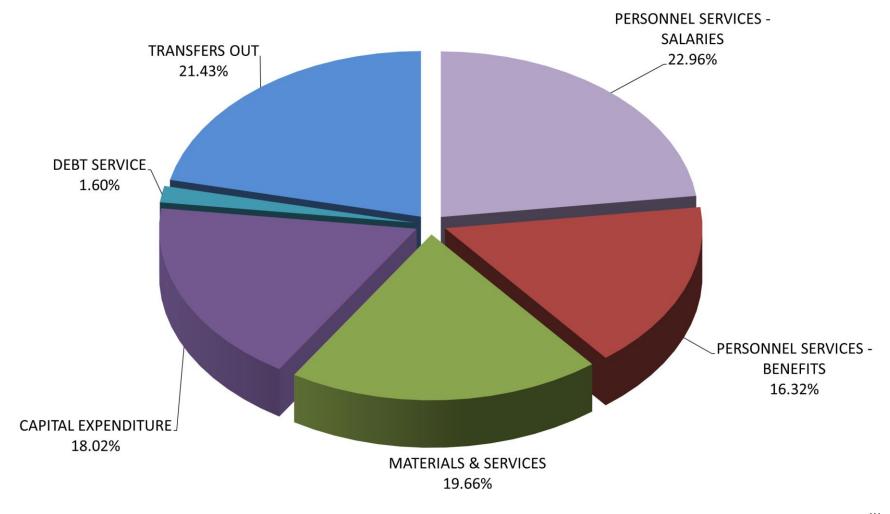

The city financials are stable and sustainable. The city has been working hard to acquire grants to fund required projects, provide critical services, and support and enhance the community. In the past few years we have successfully received almost 26 million dollars in grants; of that, just under 20 million dollars in grants will go toward our wastewater facility which will substantially lower that capital cost to our community.
